EUROSAT
YOUNG EUROSAT • ROTTERDAM • 2013

Wrap-up Saskia Stuiveling

You have to change to stay the same (William de Kooning)

Stay meaningful
YOU HAVE TO change
No option not to change
Sense of urgency

Further on

Voice of YES at EUROSAT congress
But not enough
June 2014

Difficult to come back
You need each other to overcome the yes but
Yes but
Getting back to office

New thought
Of whole generation
Become the yes and

Needs you to be meaningful
Extend after June 2014
Help each other
Keep the spirit alive!
PLEIO Network

Own congress
Have to help each other
Arabic SAI

Difference

Day to day improvement

1 Doing things different

Working methods
Crowd source data
Make an info graphic
Invite internal perspective
Innovation of day to day work

Make it part of strategy

2 Doing different things

Position your institutions different to society
Mutate our institution
Make our value valid

Make a real contribution to society in 5 years

Tsunami of data

Stay THE voice
SAIs know about data

New technology

Recent history
Google 15 years old
Internet 25 years old

SAIs are new to that world
Young generation is digital native

Be meaningful where you need it (adapt)
Innovation inside your office and with your office

Book print to internet

Invention of internet is comparable to book print

Why not China?

They invented book print
It did not spread

2 issues why not:

1. Typography Characters
2. Need permission to print

Central organized country

Europe

It did spread

Why?

Not 1 centralized continent (50 countries)
If it were illegal in 1 country

They could not be stopped in using book printing

Ever since book print we can share ideas
It's been here for 600 years

Internet

Apply same ideas
